UNIVERSITY

Emory Integrated Core Facilities

10 March 2020

Dear Emory Core Day 2020 Participants,

In an abundance of caution and in view of growing concerns regarding the spread of COVID-19, we have decided to postpone the Emory Core Day 2020 event scheduled on March 19, 2020. We intend to reschedule the event for September 2020 and are beginning to make arrangements. More information will be forthcoming when we finalize arrangements. We look forward to meeting with you all in the near future.

Sincerely,

Michael E. Zwick, PhD
Associate Vice President for Research
Robert W. Woodruff Health Sciences Center

Professor
Departments of Human Genetics and Pediatrics
Associate Dean of Research
Emory University School of Medicine
