

Connecting Scientists.
Empowering Innovation.

Atlanta User Group Meeting

The 10x Genomics User Group Meeting (UGM) is a one-day event intended for those new to single cell and spatial technology as well as seasoned 10x Genomics technology users. This highly informative series of scientific sessions will feature keynote presentations by leading researchers, expert panels, and networking opportunities with peers.

June 5, 2025
9 AM–5 PM

Emory Conference Center Hotel
1615 Clifton Rd N E,
Atlanta, GA 30329

Wondering if you should attend?
This experience will allow you to:

- **Connect with peers:** Come together with single cell and spatial researchers from across the region.
- **Talk to 10x-perts:** Our team will be on-site to help answer questions about your experiment.
- **Get inspired:** The event is designed to help you reimagine what's possible in your research.
